Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- "I don't understand this topic."
- "Can you explain this in an easy way?"
- "I need a quiz to test myself."

THINKS

- "I need a simple explanation"
- "I want to learn according to my level."
- "I need to know whether I really understood the topic."
