Demonstration of Proposed Features

Date	02 October 2026
Team ID	SWTID-2026-3981
Project Name	EduGenie – Google Gemini Powered Learning Assistant
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Interactive AI Study Assistant	Multimodal interactive chat powered by Google Gemini to answer student queries with real-time text streaming and step-by-step concept explanations.	Implemented	Yes	Live response streaming and context memory working seamlessly across conversational turns.
2	Automated Quiz & Flashcard Generator	Instant generation of custom quizzes, flashcards, and practice questions tailored to user-provided topics or uploaded documents.	Implemented	Yes	Supports multiple difficulty levels and instant self-assessment feedback with detailed explanations.
3	Document Summarization & PDF Q&A	Ingestion and processing of uploaded study materials (PDFs, lecture notes) for instant key takeaway summaries and semantic Q&A.	Implemented	Yes	Integrated RAG pipeline using Google Gemini Embeddings and vector storage for precise context retrieval.
4	Personalized Learning Pathway	Dashboard tracking student progress, weak topic	Implemented	Yes	Visual progress

	Analytics	identification, study time analytics, and adaptive study schedule recommendations.			graphs dynamically update based on quiz performance and completed study modules.
5	Voice-Based Interaction Interface	Speech-to-text and text-to-speech audio engine allowing hands-free voice queries and oral explanations for accessible learning.	Implemented	Yes	Supports multi-language audio output using browser-native Web Speech API integrated with Gemini responses.
6	Collaborative Peer Study Hub	Shared group workspaces enabling students to collaborate on Gemini-assisted study guides and share generated quizzes.	Partial	Yes	Core workspace creation and quiz sharing demonstrated; real-time multiplayer cursor collaboration planned for v2.0.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6(5 Fully Implemented,1 Partially Implemented)
Total Features Demonstrated	6
Overall Implementation Rate (%)	91.7%
